

Growling Frog Chardonnay 2010

scotts creek

Inside each bottle of Growling Frog lies a wine that is just as precious as the frog for which it is named. The Growling Grass Frog is an endangered species, but their presence in the 870 hectares of Scotts Creek wetlands, one of South Australia's largest, is a sure sign of a healthy natural ecosystem.

Region
Riverland

Alcohol
13.5%

Closure
Screwcap

Fruit
100% Chardonnay

Winemaking
Picked at dusk, crushed and immediately fermented in stainless steel tanks in order to ensure a clear transition of the fruit on the vine to the bottle. A little filtering and cold stabilising before bottling has kept a vibrant purity to the style.

Colour
Pale straw.

Aroma
Tropical notes with a bright citrus element.

Palate
A creamy mid-palate texture evened out by tropical fruits and a green apple acid balance.
