

Growling Frog Shiraz 2010

scotts creek

Inside each bottle of Growling Frog lies a wine that is just as precious as the frog for which it is named. The Growling Grass Frog is an endangered species, but their presence in the 870 hectares of Scotts Creek wetlands, one of South Australia's largest, is a sure sign of a healthy natural ecosystem.

Region

Riverland

Alcohol

14%

Closure

Screwcap

Fruit

100% Shiraz

Winemaking

We picked parcels of fruit at various points throughout vintage in order to maximise complexity in the finished wine. Fermented in stainless steel, and filtered before bottling, we have captured the essence of Riverland Shiraz.

Colour

Dark crimson.\

Aroma

Raspberry and cassis.

Palate

A dense, rich nose of dark berries and stewed plums with an elegant tannin structure and underlying complexity.
